Mathematics

Abdullah has demonstrated impressive academic progress and has a strong grasp of Numeracy skills. He actively participates in class discussions and also completes the given tasks on time. He demonstrates a solid understanding of multiplication and division involving 2-digit numbers and confidently use repeated addition, arrays, sharing and grouping strategies. Times tables are quickly and accurately recalled. He shows good understanding of time, fractions, and 3D shapes. He can organize data and draw accurate lines using a ruler. We hope to see his work with the same zeal next year.

General Science

Abdullah has shown excellent progress in science this term, applying knowledge confidently across a range of topics. He thoughtfully contributes to class discussions, makes detailed observations when identifying forces and explains ideas clearly, makes good use of models to show how different forces work. He also loved exploring how forces can make an object move faster, slower or change its direction. He is a curious learner and looks forward to how things work in nature for humans and animals.

Social Studies (We are the World)

Abdullah is a motivated learner who engages actively in class activities. He confidently identified weather symbols and explained how different types of weather affect our daily lives. He could name and locate all seven continents and shared interesting facts about each. His project on the continent of Africa was detailed, well-presented, and showed thoughtful use of classroom resources.

Art

Abdullah is an interactive and active helper in art. He has good observational skills, reflected in the 'Still Life' drawings. Abdullah could be encouraged to embrace the slow process of creating some artworks which would also help him critically analyse the works and improve his technical skills.

Essential Curricular Activities (Modules)

This term, Abdullah has taken a keen interest in Life Skills, showing thoughtful engagement during craft-based tasks such as designing tasbeeh holders and photo frames. His attention to detail and willingness to explore different materials were notable. In Roller Skating, he steadily built his coordination skills and showed increased perseverance and growth.

ICT

Abdullah demonstrated exceptional proficiency in ICT this term. He confidently used Microsoft Word to format text, edit images, and structure documents. In addition, he explored graphic design tools to creatively express ideas through digital drawings and storytelling. The term concluded with an impressive PowerPoint presentation based on the "We Are the World" theme, where he showcased strong presentation and ICT integration skills.

Deen Kids

Abdullah developed a consistent understanding of key Islamic topics. He listened attentively during lessons, especially when learning about the attributes of Allah and the story of Isra and Miraj. During the Jamat activity and class discussions, he participated with quiet interest and showed respect for the content being taught. He also grasped the importance of the Five Pillars of Islam quite well. With continued encouragement, Abdullah can progress well in both knowledge and participation.

General Observation

Abdullah brings a curious and enthusiastic spirit to his learning. His strong general knowledge adds depth to class discussions, and he eagerly participates. He works well independently and takes pride in maintaining his surroundings. He's always ready to lend a helping hand to anyone who needs it. It's a joy to see his personality shine through! We wish him the best for grade 3!
